

***** HOT OFF THE PRESS *****

JETSTREAM 2 WEEK SERVICE

The Jetstream is a unique TV media hosting and distribution service which bypasses the internet as much as possible using leased line, fibre optic networks to bring you high quality images via broadband. This means that you can receive your favourite TV wherever you have a broadband connection with none of the characteristic image blur you get with inferior systems.

By using a selection of VSAT satellite broadband operators with near worldwide coverage and super flexible contracts, e3 Systems can bring you that coverage with just a seasonal increase in costs – no need for year round expensive airtime contracts.

The Jetstream 2 Week Service comprises the following features:

- Jetstream subscription for two weeks at a time.
- Package is based on super popular TV channels with Live Sports, Recent Hollywood Movies, English Language News, Documentaries, Kids TV and Music channels.
- Service upgradeable to the full Jetstream service with access to over 20 TV networks from the UK, USA, Russia, Arab countries, Italy, France, and many more. Just ask for yours!

Price: EU€1,500 per 2 weeks or EU€2,900 per month

eVSAT Dedicated Bandwidth Satellite Broadband Contracts:

- Covering the Globe with the selected 'Best of Breed' satellite operators.
- Upgrade your current slow system to the lightning quick eVSAT.
- Available on the full range of SeaTel Cobham VSAT antennas.
- Contracts available from one month to three years.
- Upgrades for Jetstream available from 2 weeks.
