FACTSHEET

Iridium Extreme™ from Stratos

The smallest and strongest phone from Iridium

Iridium Extreme from Stratos is the most advanced, rugged satellite phone on the market offering users a single, in-hand solution for voice, data, GPS, SOS, online tracking and SMS. With the ability to locate users anywhere on the planet, it is designed for customers who are out in the elements and need the best in reliability and durability. Ideal for users in the military, mining and maritime industries.

Iridium Extreme is the **first** satellite phone:

- to meet military standard of US DoD (810F)
- with highest ingress protection rating (IP65)
- with location based services (LBS)
- to be compliant with Satellite Emergency Notification Device (SEND) features, via programmable SOS button

Iridium Extreme Design

The all-new design is 10% thinner and 7% lighter than, the Iridium 9555. Its in-hand ergonomics are better than ever with diamond-tread rubber grip and cinched waist. The top mounted, high audio speaker phone and wind-resistant microphone offers extremely high voice quality.

The location based service (LBS) option is fully integrated in our mobile phone tracking portal, StratosTrax.

Benefits

- **GPS enabled:** view/send GPS position as SMS to another device or to StratosTrax tracking portal using Short Burst Data
- **Enhanced security:** program your SOS button and use the protective cover to avoid accidentally sending an SOS; there is also the keypad lock and PIN lock for additional security
- **In-hand ergonomics:** enjoy a thinner, lighter phone with diamond-tread rubber grip and cinched waist
- **Enhanced voice quality:** hear clearly from the top mounted speakerphone and be heard clearly thanks to the wind resistant microphone
- **User friendly:** use headset and hands-free capabilities, and an easy to use interface with illuminated weather-resistant keypad

Features

- Pre-programmable International Access Code
- Mailbox for voice, numeric & text messages
- Address book (100 entry capacity) for multiple phone numbers, email addresses and notes
- SIM-based address book (155 entry capacity)

- User-configurable call timers to manage costs

Specifications

- 1430 mm (L) x 60 mm (W) x 27 mm (D)
- Weight: 247g
- MIL STD 810F (dust, shock, vibration, rain)
- IP65 (dust proof, jet water resistant)
- Standby time: Up to 30 hours
- Talk time: Up to 3.5 hours
- SOS button SEND Compliant (Satellite Emergency Notification Device by RTCM)

Accessories

- Travel charger with international plug kit*
 - Car charger*
 - Leather case
 - USB data cable*
 - User guides
 - CD Rom with software
 - Auxiliary antenna adapter
 - Magnetic vehicle mount antenna with 5' cable*
- * compatible with 9555 and 9505A

The Stratos Advantage™

Purchasing Iridium services from Stratos ensures that you benefit from our suite of industry-leading value added services known as The Stratos Advantage.

- Stratos Dashboard™ for Iridium
- StratosTrax™
- AmosConnect™
- StratosNet

Stratos Dashboard™ for Iridium

Customer | **Installed Base** | Orders | Tools | Reports | Help
 ↳ Postpaid SIM Cards | Short Burst Data | Credit Control Groups | SBD IMEI Allocation

Stratos Dashboard for Iridium is a convenient web-based portal with a full range of cost and traffic control capabilities to manage your Iridium services.

Stratos Dashboard for Iridium gives you:

- complete control of all your provisioning and monitoring
- limited credit risk by using credit control functionalities
- online access for actions in real time
- options to allow your end users to view their usage information
- the ability to export standard and customized reports to Excel or .txt format for further processing or distribution

Access and use of Stratos Dashboard for Iridium is free to Stratos partners and end users.

StratosTrax

Iridium Extreme is integrated with "StratosTrax", our new global tracking solution. StratosTrax is an online portal that is fully integrated with GPS and Geofencing capabilities for web-based location identification, and enables tracking of all Iridium Extreme, GPS and Blackberry phones. It features an intuitive, user-friendly interface that integrates Google mapping views in Map, Satellite, Hybrid and Terrain options. With its breadcrumb function StratosTrax allows you to quickly trace your trail with updates set from 15 seconds to 1 week.

AmosConnect™ 8

AmosConnect is *the* maritime standard for messaging, providing up to 85% data reduction of messages sent. AmosConnect integrates e-mail, fax, telex and GSM text into a single messaging system. AmosConnect Basic is free for qualified customers.

StratosNet™

StratosNet was developed to provide cost effective Internet services on satellite phones such as the Iridium Extreme. StratosNet gives customers a faster and cheaper method of web browsing, intranet and FTP by using on-the-fly-compression, providing up to an average of 40-45% data reduction (reaching as high as 90%).

About Stratos

Stratos is the world's trusted leader for vital communications. With more than a century of service, Stratos offers the most powerful and extensive portfolio of remote communications solutions including mobile and fixed satellite and microwave services. More than 20,000 customers use Stratos products and industry-leading value-added services to optimize communications performance. Stratos serves U.S. and international government, military, first responder, NGO, oil and gas, industrial, maritime, aeronautical, enterprise, and media users on seven continents and across the world's oceans.
